Explanatory label

Europass Mobility is a standard European document, which records details of the contents and the results - in terms of skills and competences or of academic achievements - of a period that a person of whatever age, educational level and occupational status has spent in another European country (UE/EFTA/EEA and candidate countries) for learning purposes. The Europass Mobility was established by the decision No 2241/2004/EC of the European Parliament and of the Council of 15 December 2004 on a single Community framework for the transparency of qualifications and competences (Europass). For more information on Europass, including on the Europass curriculum vitae and the Europass language Passport: <http://europass.cedefop.europa.eu>

4. DESCRIPTION OF THE EUROPASS MOBILITY EXPERIENCE

Objective of the Europass Mobility experience

- (23) The objective is: to stimulate innovative and creative mindset among young people as a key factor in their future. To do this, students first will have to get the knowledge of social justice, human rights and related social, economic and political issues; they have to understand of how the world operates (socially, culturally, economically, technologically, politically and environmentally) but also recognise of the impact of local, national and international actions and decisions for local, national and international communities and environments; they need to be aware of their own countries and its perspectives, and other countries and their perspectives. It could be possible not only by using IT, Internet but also by taking part in workshops, lectures with specialists, experts in every particular subtopic included in the project. Next step is to share the knowledge they acquired between the students-partners, discuss it, value it and on the base of it step by step create together a perfect country. Also, we want to emphasize that encouraging the study of foreign languages is paramount in living in today's world.
- The use of ICT and new technologies is pivotal to the success of our project. Our students will benefit from this learning and experiences for a future professional career in the labour market, since languages and communication are fundamental in present day job opportunities around Europe.

Explanatory label

Europass Mobility is a standard European document, which records details of the contents and the results - in terms of skills and competences or of academic achievements - of a period that a person of whatever age, educational level and occupational status has spent in another European country (UE/EFTA/EEA and candidate countries) for learning purposes. The Europass Mobility was established by the decision No 2241/2004/EC of the European Parliament and of the Council of 15 December 2004 on a single Community framework for the transparency of qualifications and competences (Europass). For more information on Europass, including on the Europass curriculum vitae and the Europass language Passport: <http://europass.cedefop.europa.eu>

4. DESCRIPTION OF THE EUROPASS MOBILITY EXPERIENCE

Objective of the Europass Mobility experience

- (23) The objective is: to stimulate innovative and creative mindset among young people as a key factor in their future. To do this, students first will have to get the knowledge of social justice, human rights and related social, economic and political issues; they have to understand of how the world operates (socially, culturally, economically, technologically, politically and environmentally) but also recognise of the impact of local, national and international actions and decisions for local, national and international communities and environments; they need to be aware of their own countries and its perspectives, and other countries and their perspectives. It could be possible not only by using IT, Internet but also by taking part in workshops, lectures with specialists, experts in every particular subtopic included in the project. Next step is to share the knowledge they acquired between the students-partners, discuss it, value it and on the base of it step by step create together a perfect country. Also, we want to emphasize that encouraging the study of foreign languages is paramount in living in today's world.
- The use of ICT and new technologies is pivotal to the success of our project. Our students will benefit from this learning and experiences for a future professional career in the labour market, since languages and communication are fundamental in present day job opportunities around Europe.

Initiative during which the Europass Mobility experience is completed, if applicable

- (24)

Qualification (certificate, diploma or degree) to which the education or training leads, if any

- (25)

Community or mobility programme involved, if any

- (26) Erasmus+ - edukacja szkolna

Duration of the Europass Mobility Experience
